

WHAT NEXT?!

Navigating the PhD is certainly not an easy task, but making decisions about what to do next can be even more complicated and stressful.

@LINCS we know how difficult and disorienting this can be, thus **we invited some former LINCS members (who were in your situation only a few years ago) to tell us their stories.**

We chose people who undertook very different paths: they ended up in academia, in startups, in big companies, in public institutions... They are all easy-going and nice people, ready to share their experience, including all their doubts, their hesitations, their failures, their inspirations, etc.

We believe that you will find useful to start getting an idea of "what's outside". It is important to think about what can make you happy. Different paths bring different pros and cons, which it is worth exploring. Together, it is better!

We hope to see many of you participating in this event: there will be a lot of time for Q&A.
